THE WEATHER.

Local Office, U. S. Weather Bureau,
Monday, August 25, 1911.

Temperature, 6 a. m.: 75 a. m.: 10
a. m.: and morning minimum:
74, 75, 81, 81, 75.

Barometer reading, Absolute hu-
midity (grains per cubic foot); relative
humidity and dew-point at 9 a. m.:
75.25, 7.49, 68, 67.

Wind velocity and direction at 6 a.
m.: 8 a. m.: 10 a. m.; and noon:
42, 5NE, 16NE, 29NE.

Rainfall during 24 hours ending 8
a. m., trace rainfall.

Total wind movement during 24
hours ending at noon, 125 miles.

WM. B. STOCKMAN
Section Director.

NEWS IN A NUTSHELL

Paragraphs That Give Condensed
News of the Day.

St. Louis College opens September 5.
The genuine Campbell Kid Dolls
and many others right from the fac-
tory at Wall, Nichols Co., Ltd.

Pacheco's Dandruff Killer will put
new life in your hair follicles and
make it grow beautiful and luxuriant.
Try it once and be convinced of its
efficacy.

Walter S. Russell, of Russell, Green
& Foels, of Los Angeles, arrived in
the Mongolia and will enter a bid for
the superstructure of the Hilo break-
water. Congress appropriated half
a million dollars for this work.

A special meeting of Hawaiian
Sugar Company is called for Septem-
ber 11, for the purpose of amending
the by-laws and any other business
that may be brought up.

James F. Morgan sold at auction on
Saturday fractional shares of Malay
rubber stocks with these results: J.
L. Fleming bought ten shares Pahang
at \$20.62½, and Gifford & Roth fifteen
Tanjong Olok at \$36.

An effort was made to organize a
longshoremen's union at Nottley Hall
last evening, but when it came to
signing the petition asking for affilia-
tion with the Seattle branch of the
National Longshoremen's Union,
many of those present departed.

That the young lady engaged as
stenographer for the Board of Land
Commissioners, got married inopportu-
nely, and another young lady who
was impressed into service got tan-
gled up on the job, is alleged to be in
part the reason why Governor Frear
has had difficulty in securing a copy
of the minutes of the Board, in which
the important negotiations between
the Board and Senator Fairchild, over
the proposed opening of the Kapapa
lands, on Kauai, should have been re-
corded.

The whole Mahukona wharf prob-
lem, which was thought to have been
satisfactorily settled after the visit
of the Harbor Commissioners to the
port in question several weeks ago,
now threatens to be torn wide open
again. The matter has been pending
for several years. The trouble arises
by the Hawaii Railroad Company's
now making a complaint that the foot-
path provided for passengers between
the company's and the Territory's
wharf, will cause the chafing of the
shore lines of steamers in the harbor.
The Superintendent of Public Works
does not think it will be feasible to
change the foot way. The matter will
be taken up at the meeting of the
Board tomorrow afternoon.

BISHOP STREET
ARBITRATORS

Frank B. McStocker has been ap-
pointed by President E. I. Spalding as
the Chamber of Commerce member
of the board of arbitration on the ex-
tension of Bishop street. President
E. O. White of the Merchants' Asso-
ciation had appointed John H. Soper
as that body's representative, and the
property owners, Charles Huatace, Jr.,
as a disinterested sponsor for them.
It is probable that the arbitrators will
have a conference with Marston
Campbell, superintendent of public
works, this afternoon or tomorrow
morning.

SEALED TENDERS.

SEALED TENDERS will be received
by the Board of Harbor Commissioners
of the Territory of Hawaii until 2 P. M.
of Wednesday, September 12, 1911, for
furnishing DIVING OUTFIT.

Proposal blanks are on file in the
office of the Superintendent of Public
Works, Capitol Building.

The Board of Harbor Commissioners
reserves the right to reject any or all
tenders.

MARSTON CAMPBELL.

Chairman, Board of Harbor Commis-
sioners.

BISHOP TRUST
BENEFACTIONS

The sixteenth annual account of the
trustees of the Charles R. Bishop
Trust is the subject of a report just
filed by Job Hatchelor, master. Re-
ceipts amounted to \$48,372.89, includ-
ing the proceeds of Pioneer bonds
sold, and the disbursements to \$46,
836.12, including \$29,355 for the pur-
chase of securities. Working charges
including \$1767.50 for trustees' com-
missions amounted to \$2602.25.

Payments out of revenue receipts
were \$32,997.89, or \$22,449.28 less
than last year. This is principally
owing to the donation of \$20,000 last
year to the Bishop Museum for the
new laboratory building, the amount
donated to the museum this year be-
ing \$500.

Investments in 1911 were \$672,092.50
and income \$32,058.94, having in-
creased steadily since 1906 when they
were \$588,000 and \$23,956.65 respec-
tively.

Beneficiaries of the Trust for the
year ended August 12, with the
amounts paid, were as follows: Bishop
Museum, \$5000; Kawaiahao Seminary,
\$2400; Kamehameha half scholarship,
\$1472.50; Maunaloa Seminary, \$1200;
Kohala Girls' School, \$800; Free Kin-
dergarten, \$600; Mills School, \$500;
Kalanani'ole Home, \$500; St. Andrew's
Priory, \$300; Sisters Sacred Heart,
\$300; Kamehameha Alumni, \$300; Ka-
mehehameha founder's day, \$200; Ka-
mahapili church, \$100; Central Union
Church, \$100; Kawaiahao Church,
\$100; Caroline F. P. Bush, stipend,
\$300; Kealahou, stipend, \$240;
Jennie Kealahou, Kawaiahao Seminary,
\$117.57; Miss Alexander, care of
grave, \$60; total, \$14,590.97.

The trustees report that the sum
of \$5000 was donated out of the in-
come to assist the museum to meet
the expense of its employment of Dr.
W. D. Alexander as historian for the
institution and in writing and pub-
lishing a new History of the Hawaiian
People. The sum of \$657.57 was paid
out for the support of indigent Ha-
waiians.

FAST WORK ON
THE DRY DOCK

Work is proceeding at a rapid rate
on the drydock at Pearl Harbor. Every-
thing is being pushed along, and
it is anticipated that within two years
the dock will be ready to receive ves-
sels.

It will be capable of accommodating
the largest vessel belonging to the
United States, and any kind of repair
work will be possible at the dock. The
completion of the work will be a boon
to others beside the naval authorities,
for it will increase the importance of
Honolulu, as repairs will be under-
taken to merchant steamers whenever
necessary.

The docking facilities here are lim-
ited now, but with the finishing of the
naval dock, a vessel even the size of
the Mongolia and the Manchuria could
be accommodated.

DR. M'CORMACK

(Continued from page one.)

public in the past has been unable to
distinguish between reputable physi-
cians and quacks. He told of impos-
sibility only a few years ago to get
any legislation on account of prej-
udice against the profession. This was
due to the fighting among doctors
themselves.

Dr. McCormack illustrated his ad-
dress with many apt and humorous
illustrations. He stated that the pro-
fession is gradually getting away
from this bickering attitude of doc-
tors and that not until they do will
they get the full confidence of the
public.

"I know more doctors than probably
any other man, and I say that the doc-
tors of this country are the greatest,
most noble set of men in the world.
The good they do, the charity they do
individually is boundless."

The trouble, the speaker stated
was due to lack of organization. The
same thing he finds in all unorganized
professions. Of all callings probably
only the lawyers are free from this
rancor towards each other; the rea-
son being that lawyers are constantly
brought together. Wherever the doc-
tors have gotten together, there has
been no more trouble, and the useful-
ness of every individual has been in-
creased an hundred fold.

Dr. McCormack told of the success
of his work, how it was organized and
the results that now the American
Medical Association now has over 80,
000 members.

CHARGE THEFT OF HALF
BILLION IN OIL LANDS

LOS ANGELES, August 18.—A Fed-
eral investigation extending over nine
months, which is still being secretly
conducted, has uncovered, it is said,
one of the most gigantic conspiracies
to defraud the government of mineral
lands in the history of California.

Within the next few months, the
Examiner correspondent learned to-
day from authoritative sources, Cali-
fornia oil and other mineral-bearing
lands worth \$500,000,000 will be at-
tacked in the Federal courts of Los
Angeles by the United States govern-
ment.

Simultaneously with the filing of
civil actions to prevent the successful
carrying out of the suspected conspir-
acy and to recover possession of the
lands, indictments will be returned
against prominent officials of the
trans-continental railroads and big oil
companies. The list, it was asserted,
includes two or more officials of the
Southern Pacific railroad.

Fisher to Take a Hand.

Walter P. Fisher, Secretary of the
Interior, according to the informant

of the Examiner correspondent, will
himself participate in, or at least,
will be present at the legal battle to
restore the lands said to have been
fraudulently obtained.

It was learned today that James M.
Sheridan, chief of the field division of
the United States General Land
Office in Washington, will arrive in
Los Angeles within the next few days.
It was said that he would head the
government prosecution of the fraud
cases, both civil and criminal.

It was Sheridan who represented
the United States government in the
Cunningham coal cases in Alaska.

U. S. Men Are Secretive.

The details of the reported conspir-
acy are closely guarded by the local
government officials. It is impossible
to learn the identity of the high rail-
road and oil officials who, it is said,
will be charged with conspiracy to
defraud the government.

Already the government has actions
pending attacking the patents to
Southern Pacific mineral holdings
worth several millions of dollars, said
to have been secured through fraud.

POLICE COURT

Alan Corey, a son of Corey the
Pittsburg steel magnate, who is here
on a honeymoon trip, was charged
with violating the auto-speeding or-
dinance, in the police court this morn-
ing.

Hia case was nolle prossed at the
request of A. M. Brown, the prosecut-
ing officer who said that defendant
was excusable because he had only
been in the Territory a few days and
was ignorant of the law.

G. I. Brown, a poorer man, guilty of
a similar offense, was fined \$5 and
costs.

D. W. Davis, drunk, had sentence
suspended for thirteen months, and
Yugi, also drunk, was fined \$3 and
costs.

This morning Loka was arrested
for drunkenness, Punhaole for profa-
nity, and J. Connors and Ben for
larceny in the second degree.

Korea Eight O'Clock Friday Morning.

A wireless message from the Korea
to the agents, Hackfeld & Co., is to
the effect that the vessel will be here
at eight o'clock on Friday morning.
She will leave for San Francisco at
five o'clock the same afternoon in con-
tinuation of her voyage from the
Orient.

News by Telegraph.

(Per Merchants Exchange.)

PORT TOWNSEND—Arrived, Aug-
ust 8, Schooner Roberts Lewers,
hence Aug. 7.

HILLO—Sailed 28, S. S. Hilonian for
San Francisco.

SAN FRANCISCO—Arrived, August
29, S. S. Sierra at 10 a. m., hence Aug.
23.

PORTUGUESE SENSATION.

LISBON, July 20.—A sensation has
been caused by the announcement of
the discovery of a small coffer con-
taining secret correspondence between
the deposed royal family of Portugal
and the British and German govern-
ments. King Manuel, foreseeing the
revolution, asked for foreign interven-
tion, offering in compensation Portu-
guese territory in Africa. Great Brit-
ain and Germany refused to interfere.
The correspondence will be read be-
fore the national assembly.

Fine Job Printing, Star Office.

WAILUA STOCK
IS AEROPLANING

Wailua continues to soar, having
advanced two and one-half points on
the board today. Sales of twenty-five
and ten shares at yesterday's high
mark of \$120 were reported, but fifty
brought \$122.50 at exchange session.
This price is now bid and \$124.50 asked
for Wailua. Onomea came out to
the amount of ten shares at \$47.50,
which is four and a half points above
last previous sale. Kekaha, a stock
that seldom appears on the market,
registered an advance of five points in
four lots of five shares each at \$225,
and two and a half more is now asked.

Honokaa shows a three-eighth point
improvement, forty and ten shares go-
ing at \$13.25, and a quarter more is
asked. Olua fell a quarter in recess,
fifty shares at \$5.75 being reported,
and it is now \$5.62½ bid and \$5.87½
asked. Oahu is unchanged at \$32, at
which fifteen and twenty-five shares
were reported and ten sold at the ses-
sion. A quarter more is asked. Ha-
waiian Commercial sold unchanged in
recess, twenty-five shares at \$41.12½,
and holders are asking an eighth more.

Ewa fell off a quarter point in sales of
twenty-five and fifty between sessions
at \$32.75, but holders are still asking
yesterday's high for it, Hawaiian Pine-
apple also dropped a quarter, sales of
sixty and twenty shares at \$38.25 be-
ing reported. Half a point advance is
bid for Pioneer from \$215 last sale, but
\$220 is asked for this gilt-edged article.

McBryde is \$7 bid and \$7.25 asked,
against last sale of \$7.½. On the
whole the market is strong, outside of
the few spectacular rises noted.

To interest Russians in countries
around the Pacific is the object of a
new magazine, the Searchlight,
which is being published at Dairen,
Manchuria, by A. W. Perelstous, for-
merly in Hawaii in connection with
the Russians brought from Manchuria
for the plantations here, and now gen-
eral manager in Manchuria for the
International Immigration and Colon-
ization Company of Hawaii.

Fine Job Printing, Star Office.

PERSONS IN THE NEWS

D. B. MURDOCH, auditor for the
Alexander & Baldwin plantations,
leaves for Kauai this afternoon.

MISS A. MACAULAY, daughter of
pilot Macaulay, leaves this afternoon
for San Francisco by the bark An-
drew Welch.

S. DECKER leaves for the States in
the bark Andrew Welch. He has not
been away from the islands for nearly
twenty years.

PRESIDENT GRIFFITHS of Oahu Col-
lege returns to the city Saturday,
and will be at the office from nine to
eleven o'clock Monday morning.

PRINCESS KAWANAKOHA, who is
now in London, will arrive in San
Francisco about December 1 on her
way home to Honolulu. She is re-
ported to be now in excellent health.

W. S. RUSSELL, of the Los Angeles
firm of Russell, Green & Foels, who
arrived here yesterday, will prob-
ably enter a bid for the construc-

tion of the superstructure on the
Hilo breakwater, bids for which will
be opened in this city on September
8. The contract is an important
one, involving an outlay of about
half a million dollars.

PERCY HUNTER, Director of the New
South Wales Tourists Bureau, has
written to A. H. Ford stating that
he intended leaving London at the
end of this month for the United
States. Before leaving however, he
would give a banquet he said, for
the purpose of telling about the
Hands-Around-the-Pacific-Club. Hun-
ter explained that he did not call
again on a certain man in San Fran-
cisco to whom he had letters of
introduction by the Promotion
Committee, because the man was
discourteous to him. He called on
him, but the man did not receive
him properly, so he did not go back.
There was no mystery about his hav-
ing left, or anything to suggest that
he had done anything wrong in leav-
ing the way he did, though, Hunter
explained.

The Only Way

To be comfortable this weather is to install an

Electric Fan

Turn on the current and you will not miss the trade winds.

The cost is insignificant and a fan will last for years.

The Hawaiian Electric Co., Ltd.

STREET CLEANING

Taking weeds from the gutters and grass from the streets has been
started by the street cleaning department of government. Next will
be ridding sidewalks of weeds following which the cement walks
will come along. The materials for foundations can be had of us.
